SECTION 4: First aid measures

4.1 Description of first aid measures · General information: No special measures required. • After inhalation: Supply fresh air; consult doctor in case of complaints. · After skin contact: Immediately rinse with water. If skin irritation continues, consult a doctor. Seek immediate medical help for blistering or open wounds. · After eye contact: Protect unharmed eye. Remove contact lenses if worn, if possible. Rinse opened eye for several minutes under running water. Then consult a doctor. • After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately. 4.2 Most important symptoms and effects, both acute and delayed Coughing Caustic effect on skin and mucous membranes. Danger of severe eye injury. Gastric or intestinal disorders when ingested. Hazards Repeated exposure may cause skin dryness or cracking. Danger of gastric perforation. Causes severe skin burns and eye damage. May be harmful if inhaled. · 4.3 Indication of any immediate medical attention and special treatment needed If swallowed, gastric irrigation with added, activated carbon. (Cont'd. on page 4)

according to 1907/2006/EC (REACH), 1272/2008/EC (CLP), and OSHA

Medical supervision for at least 48 hours.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- For safety reasons unsuitable extinguishing agents: None.
- 5.2 Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- 5.3 Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

• Additional information No further relevant information available.

SECTION 6: Accidental release measures

$^{\circ}$ 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation

Use personal protective equipment as required.

Particular danger of slipping on leaked/spilled product.

6.2 Environmental precautions:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

· 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13.

Send for recovery or disposal in suitable receptacles.

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

· 7.1 Precautions for safe handling

Prevent formation of aerosols.

Use only in well ventilated areas.

Information about fire - and explosion protection: No special measures required.

· 7.2 Conditions for safe storage, including any incompatibilities

· Storage:

· Requirements to be met by storerooms and receptacles:

Store in a cool location.

Unsuitable material for receptacle: aluminium.

Unsuitable material for receptacle: steel.

(Cont'd. on page 5)

according to 1907/2006/EC (REACH), 1272/2008/EC (CLP), and OSHA

(Cont'd. from page 4)

Unsuitable material for receptacle: glass or ceramic. Provide ventilation for receptacles. Information about storage in one common storage facility: Store away from foodstuffs. Store away from oxidising agents.

Do not store together with acids.

• Further information about storage conditions: Keep container tightly sealed.

· 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

· Additional information about design of technical facilities: No further data; see section 7.

· 8.1 Control parameters

Ingredients with limit values that require monitoring at the workplace:			
111-76-2 2-butoxyethanol			
IOELV (EU)	Short-term value: 246 mg/m³, 50 ppm Long-term value: 98 mg/m³, 20 ppm Skin		
PEL (USA)	Long-term value: 240 mg/m³, 50 ppm Skin		
REL (USA)	Long-term value: 24 mg/m³, 5 ppm Skin		
TLV (USA)	Long-term value: 97 mg/m³, 20 ppm BEI		
EL (Canada)	Long-term value: 20 ppm		
EV (Canada)	Long-term value: 20 ppm Skin		
1310-73-2 sodium hydroxide			
	Long-term value: 2 mg/m ³		
REL (USA)	Ceiling limit: 2 mg/m ³		
TLV (USA)	Ceiling limit: 2 mg/m ³		
EL (Canada)	Ceiling limit: 2 mg/m ³		
EV (Canada)	Ceiling limit: 2 mg/m ³		
DNELs No further relevant information available. PNECs No further relevant information available.			
· Ingredients w	vith biological limit values:		
111-76-2 2-bi	utoxyethanol		
	00 mg/g creatinine		
	edium: urine

(Cont'd. from page 5) · 8.2 Exposure controls · Personal protective equipment: · General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid close or long term contact with the skin. Avoid contact with the eyes. **Respiratory protection:** Not required under normal conditions of use. Use suitable respiratory protective device when high concentrations are present. Use suitable respiratory protective device in case of insufficient ventilation. For large spills, respiratory protection may be advisable. Protection of hands: Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Eye protection: Contact lenses should not be worn. Safety glasses · Body protection: Protective work clothing · Limitation and supervision of exposure into the environment Avoid release to the environment. · Risk management measures See Section 7 for additional information. **SECTION 9: Physical and chemical properties** • 9.1 Information on basic physical and chemical properties General Information · Appearance: Form: Liquid Orange Colour: · Odour: Citrus · Odour threshold: Not determined. pH-value: Not determined.
